① プロジェクト名

Application Service Delivery + Education Platform

②プロジェクトの時期

2018年04月 〜 2022 年 7月

③プロジェクト概要

(NuSpa) is an app for scheduling massage and aesthetic services at home.

The Service Provider registers in the app, buys a franchise and must undergo training before proceeding with any service. After completing the training, the user is subjected to a test, having a satisfactory note, he receives a certificate and can provide services within the platform.

The end user registers in the application, selects the service provider that best suits him, makes the appointment, makes the payment within the platform, all with a high level of security.
